COURSEWORK

GRADUATE

CSS the complete guide

The complete javascript course

React: The complete Dev guide

The ultimate Next.js guide

React and Typescript course

Docker and Kubernetes

SKILLS

PROGRAMMING

Over 2000 lines:

Typescript • ReactJs • Next.js

• Javascript • TailwindCss

• Express • Node.js

• Framer-Motion

Intermediate:

HTML • Javascript • CSS

• BrightData • Puppeteer

• MongoDB • Prisma • Docker

• Kubernetes

Familiar:

• AWS • PostgreSQL

• Linux • Git/github

PROJECTS

Content Management System | (CMS)

•A robust **CMS** for managing products, colors, sizes, billboards, and stores, with integrated **authentication**, **payment** processing, and **analytics**.

•Leveraged **Next.js** for **SSR** & server actions, **TailwindCss** for styling, **Prisma** for ORM, **PostgreSQL**, **Cloudinary** for CDN, **Clerk** for authentication and **Stripe** for secure payments.

Cosmetics Store | E-Commerce

•A comprehensive platform offering a full suite of features seen in industry-leading e-commerce sites, including **product management**, user **authentication**, and secure **payment processing**.

•Utilized **Next.js** for **SSR** & server actions, **React** for dynamic UI, **TailwindCss**, and **Stripe**.

Messenger | Clone

•Functionality: A **real-time messaging** application featuring **group chats**, friend requests, and message history, designed for seamless communication experiences.

•Employed **Next.js** for **SSR**, React for interactive UI, **TailwindCss**, **Prisma**, **MongoDB**, and **Pusher.js**.

Learning Management System | (LMS)

•An **LMS** platform allowing users to **purchase** video courses, **track** their progress, and make **payments** securely, enhancing **accessibility**.

•Developed a dynamic LMS with **Next.js**, **React**, **TailwindCss**, and **PostgreSQL**, integrating **Stripe**, **Prisma** providing a seamless learning experience with **Uploadthing's** CDN.

PriceWise | Web-Scraping

•A platform that tracks Amazon product prices in real-time, sending immediate email updates on price changes, drops, or increases.

•Built this tool using **Next.js**, **TailwindCss**, **NodeMailer**, **Puppeteer**, **MongoDB**, and **BrightData**.

Portfolio | Animations

•A dynamic **portfolio** that elegantly showcases personal projects and skills, enriched with **captivating animations** and a **sleek modern design**.

•Crafted an engaging portfolio website with **Next.js**, utilizing **Framer-Motion** for animations and **TailwindCss** for styling, demonstrating proficiency in modern web development practices
